 = vegan entree (no animal products)

Brewed Awakenings Coffeehouse

Brewed Awakenings Coffeehouse opened in a cooperative grocery store in downtown Grand Rapids in 1996. Cooking

vegetarian soups for the patrons of the coop, we soon had a following of adventurous connoisseurs who gave us the license to create something new everyday by coming to eat a once-in-a-life-time combination of wholesome veggies, grains, beans, and spices all gathered together in the name of 'soup'. One dear customer commented, "It's like going home for lunch. If you're hungry, you eat what's on the table." Joan now has 65 original vegetarian soup recipes named and written down, so eating here does not have to be such an act of faith anymore.

Our mission is to be a café where you can eat everyday and be healthy.

With the belief that the way we do business will strengthen our community and even farther reaching ecosystems, we strive to provide you with a cuisine prepared whenever possible with the finest organic ingredients that are purchased and grown locally.
